

MOD Pizza

Every approved keto pick • net carbs as modified • say it exactly like the orange lines

MOD Pizza is keto-friendly mainly if you skip pizza entirely and order a salad with low-carb toppings. Best choices are create-your-own salads, Caesar without croutons, Italian Chop without chickpeas, and zero-sugar drinks or water. Avoid all pizzas, cheesy bread, desserts, kids pizza meals, and sugary bottled beverages.

COMBOS

CYO Salad + Drink Combo
