

Outback Steakhouse

Every approved keto pick • net carbs as modified • say it exactly like the orange lines

Outback is very workable for keto if you build meals around steak, grilled chicken, grilled shrimp, salmon, lobster, wings in Buffalo/naked flavors, and non-starchy sides like broccoli, asparagus, or salad. The main traps are Bloomin' items, coconut shrimp, pasta, fries/potatoes/rice/mac and cheese, sweet BBQ/teriyaki/glazes, desserts, lemonade, soda, and cocktails. For a strict 20g/day keto target, order grilled protein with broccoli/asparagus and keep sauces on the side.
