

Papa Johns Pizza

Every approved keto pick • net carbs as modified • say it exactly like the orange lines

Papa Johns is difficult for strict keto because most listed items are pizza crust, breadsticks, or cheese-on-bread products where the dough is the dish. The best keto approach from this menu is a Create Your Own Papa Bowl or an oven-toasted sandwich ordered with no bread and eaten as a bowl; keep the meal under 12g net carbs by limiting pizza sauce, onions, and sweet toppings.
