

Starbucks Coffee Company

Every approved keto pick • net carbs as modified • say it exactly like the orange lines

Starbucks can work for keto if you stick to unsweetened coffee or tea, or modify espresso drinks by removing syrups/sauces and replacing milk with heavy cream diluted with water. For food, the best options are breakfast sandwiches or paninis eaten without bread/wraps; avoid baked goods, oatmeal, Frappuccinos, refreshers, lemonade drinks, and desserts.

ALL-DAY BREAKFAST
