

Subway

Every approved keto pick • net carbs as modified • say it exactly like the orange lines

Subway can work well for keto if you order the listed proteins as a No Bready Bowl or salad instead of a sub or wrap. Stick with meats, eggs, cheese, bacon, steak, chicken, lettuce/spinach, olives, cucumbers, peppers, ranch, mayo, mustard, or oil & vinegar; avoid sweet onion teriyaki, meatball marinara, bread, wraps, cookies, pretzels, chips, juice, and soda.
