

Waffle House

Every approved keto pick • net carbs as modified • say it exactly like the orange lines

Waffle House can work well for keto if you build meals around eggs, bacon, sausage, ham, steak, pork chops, grilled chicken, and omelets. The main rule is to remove hashbrowns, grits, toast, biscuits, waffles, and sugary drinks; those are the carb sources that can quickly exceed a 12g net-carb meal limit.

BREAKFAST
