

Wingstop

Every approved keto pick • net carbs as modified • say it exactly like the orange lines

Wingstop can work for keto if you stick to classic bone-in wings, avoid boneless wings/tenders/sandwiches, and choose low-carb flavors like Plain, Lemon Pepper, Garlic Parmesan, Original Hot, Atomic, Cajun, Louisiana Rub, or Mild. Skip fries, corn, sugary drinks, desserts, honey mustard, and sweet sauces; pair wings with veggie sticks plus ranch or blue cheese.
