

Arby's

Every approved keto pick • net carbs as modified • say it exactly like the orange lines

Arby's can work for keto mainly by ordering roast beef, ham, turkey, gyro, Reuben, or cheesesteak items without the bun, roll, pita, or bread and skipping fries and sugary drinks. Avoid the crispy chicken/tenders, fries, mac and cheese, fried snacks, desserts, lemonades, juice, milk, and shakes because the breading, starch, or sugar cannot be removed.
