

Blaze Pizza

Every approved keto pick • net carbs as modified • say it exactly like the orange lines

Blaze Pizza is difficult for keto because the core menu is pizza, cheesy bread, desserts, and sugary drinks; do not rely on removing toppings from pizza because the crust is the dish. The best keto choices are modified salads with no flatbread/croutons/chickpeas/pita chips, Fast Fire'd Meatballs, water or Diet Coke, and low-carb dressings like ranch, Caesar, pesto, or olive oil.
