

CAVA

Every approved keto pick • net carbs as modified • say it exactly like the orange lines

CAVA can work for keto if you build a greens-only salad bowl with grilled chicken or grilled steak, feta/Crazy Feta, tzatziki, cucumber, olives, and dressing on the side. Avoid rice, lentils, pita, pita chips, corn, hummus, sweet drinks, desserts, and sweet proteins like harissa honey chicken or glazed salmon when staying under 7g net carbs per meal.
