

Camellia Mexican Restaurant

Every approved keto pick • net carbs as modified • say it exactly like the orange lines

For keto at Camellia Mexican Restaurant, order the meat-based tacos, taco salad, fajita items, burrito fillings, or enchilada fillings as bowls with no tortillas/shells, no rice, and no beans. The safest plates are taco salad without the shell and fajita beef or chicken bowls; avoid chips, tamales, rice, beans, beer, and frozen margaritas.
