

# Carrabba's Italian Grill

Every approved keto pick • net carbs as modified • say it exactly like the orange lines

Carrabba's can work for keto if you focus on Tuscan-grilled steaks, grilled chicken, salmon, seafood, and non-starchy sides like asparagus, broccoli, spinach, and salad. Avoid the pasta section, fried appetizers, Chicken Parmesan, breadsticks, fries, desserts, lemonade, and sangria; for sandwiches, remove the bread and skip starchy combo sides.
