

Chester's Chicken

Every approved keto pick • net carbs as modified • say it exactly like the orange lines

Chester's Chicken is very difficult for strict keto because the core proteins shown are fried/breaded, and the menu does not list grilled, baked, roasted, or naked chicken options. The safest keto choices from the visible menu are green beans, ranch or buffalo sauce, and a zero-calorie fountain drink; avoid the chicken, tenders, bites, biscuits, potatoes, mac & cheese, and fried pie.
