

Chick-fil-A

Every approved keto pick • net carbs as modified • say it exactly like the orange lines

Chick-fil-A can work for keto if you stick to items explicitly labeled grilled, especially Grilled Nuggets, no-bun Grilled Chicken Sandwiches, and modified breakfast egg/sausage/bacon items without biscuits or muffins. Avoid the standard chicken sandwiches, nuggets, strips, biscuits, fries, hash browns, fruit, desserts, and sugary drinks because the breading or starch is not removable.
