

Cracker Barrel Old Country Store

Every approved keto pick • net carbs as modified • say it exactly like the orange lines

Cracker Barrel can work for keto if you focus on explicitly grilled proteins, bunless sandwiches, eggs with breakfast meat, green beans, broccoli, and salads without croutons or sweet toppings. Avoid the many Southern comfort staples built from flour, breading, dumplings, pancakes, biscuits, potatoes, mac and cheese, sweet drinks, and desserts. For entrées, always say no biscuits/cornbread and replace starchy sides with green beans, broccoli, or a plain house salad.
