

# Domino's Pizza

Every approved keto pick • net carbs as modified • say it exactly like the orange lines

Domino's is difficult for strict keto because most of the menu is pizza crust, pasta, bread, chips, or dessert. The safest keto meal is bone-in wings in Plain, Hot, or Mild flavor plus a salad with ranch or Caesar, or a sandwich ordered without bread as fillings in a bowl. Avoid all pizzas, pastas, breads, boneless chicken, specialty chicken, sweet sauces, and regular sodas.
