

Dunkin'

Every approved keto pick • net carbs as modified • say it exactly like the orange lines

Dunkin' can work for keto mainly with black coffee, plain espresso/Americano, unsweetened tea, water, zero-sugar bottled drinks, bacon, and breakfast sandwich fillings ordered without bread or wraps. Avoid the donuts, Munchkins, muffins, bagels, croissants, hash browns, frozen drinks, refreshers, juices, sweet lattes, and all flavor swirls because those are sugar/starch-heavy and not removable enough for a 12g net-carb meal cap.
