

El Pollo Loco

Every approved keto pick • net carbs as modified • say it exactly like the orange lines

El Pollo Loco is very workable for keto because the flame-grilled chicken itself is the safest core item. Build meals around chicken, broccoli, salad, guacamole, queso, sour cream, salsa, and ranch; remove tortillas, rice, beans, corn, chips, tostada shells, and sugary drinks. The easiest orders are chicken à la carte or chicken meals with broccoli or side salad instead of starchy sides.
