

First Watch | Breakfast • Brunch • Lunch

Every approved keto pick • net carbs as modified • say it exactly like the orange lines

First Watch can work for keto if you build around eggs, omelets, frittatas, Benedicts without bread, breakfast meats, avocado, and salads without toast or sweet dressing. The main pattern is to remove toast, tortillas, buns, potatoes, quinoa, beans, corn, fruit, honey/sweet sauces, and sugary drinks. Best simple orders are omelets with no toast, Benedicts with no ciabatta, The Traditional with no toast/potatoes, or Cobb Salad with no ciabatta.
