

Hooters

Every approved keto pick • net carbs as modified • say it exactly like the orange lines

Hooters can work for keto if you focus on steamed shrimp, snow crab legs, naked or smoked bone-in wings with low-carb sauces, bunless burgers, bunless Philly-style sandwiches, and salads without croutons. Avoid the breaded items---original wings, boneless wings, tenders, Buffalo shrimp, fried fish---as well as fries, tots, nachos, desserts, and sugary drinks.
